PROFESSIONAL PROFILE

Motivated and hands-on IT professional transitioning from a strong trade background into network engineering and IT support. Currently pursuing a degree in Applied Information Technology and working towards CCNA certification, supported by practical home lab experience configuring networks, routing, and troubleshooting connectivity.

Brings a proven ability to diagnose complex system issues, interpret technical documentation, and communicate solutions clearly to both technical and non-technical stakeholders. Known for a strong work ethic, adaptability, and the ability to perform effectively in fast-paced, problem-solving environments.

EDUCATION & QUALIFICATIONS

- Currently Studying – Degree in Applied Information Technology
 - Diploma in Applied Information Technology
 - Certificate III in Plumbing (Australia)
 - Certificate III in Gas Fitting (Australia)
 - NVQ Level III in Plumbing and Gas (UK)
-

TECHNICAL SKILLS

- Networking Fundamentals (CCNA-level: IP addressing, subnetting, VLANs, OSPF)
 - Basic Network Configuration (VLANs, routing, troubleshooting)
 - IT Support & Troubleshooting (hardware, software, connectivity)
 - Foundation HTML
 - SQL
 - Java
 - Microsoft Office
-

PROFESSIONAL SKILLS

- Technical Troubleshooting & Problem Resolution

- Network Configuration & Support
 - Customer Service & Technical Communication
 - Time Management & Task Prioritisation
 - Stakeholder Engagement
 - Ability to Work Independently and in Teams
-

CORE COMPETENCIES

- Strong analytical and problem-solving mindset
 - Ability to diagnose and resolve technical issues efficiently
 - Clear communication of technical concepts to non-technical users
 - Adaptability in fast-changing technical environments
 - High attention to detail and commitment to quality outcomes
-

LICENCES & PERMITS

- Gas Installation and Servicing Licence
 - Australian Type A Gas Appliances
 - UK Gas (Cookers, Boilers, Heaters)
 - Flue Gas Analysis (UK)
 - Work Safely at Heights
 - Senior First Aid
 - White Card
-

RELEVANT EXPERIENCE – IT & NETWORKING

Home Lab & Academic Projects | Ongoing

- Built and configured a multi-device home lab including routers, switches, and end devices
 - Practised network configuration including IP addressing, VLANs, and routing protocols (OSPF)
 - Performed troubleshooting of connectivity issues across simulated network environments
 - Gained hands-on experience with network design, configuration, and testing
 - Configured NAT on edge router to enable internet connectivity
 - Established routing between subnets using OSPF over point-to-point links
-

EMPLOYMENT HISTORY

MAINTENANCE PLUMBER

Hilton Plumbing // March 2022 – Current

- Diagnose and resolve complex system issues across residential and commercial environments using structured troubleshooting approaches
 - Interpret technical plans and specifications to ensure accurate system implementation
 - Communicate technical information clearly to clients and stakeholders
